Introduction to

OSMA

Osma Below Ground Drainage systems, form part of a comprehensive range of plastic systems to provide intelligent solutions for all building, construction and utilities projects.

Key to abbreviations

- P/E – Pipe and fittings with both ends plain or with one plain end and one special end.
S/S – Pipe and fittings with one or more ring-seal or push-fit sockets, but always one plain or special end.
D/S – Fittings with ring-seal or push-fit sockets at all ends.
S/SW – Fittings with one or more ring-seal sockets but always one solvent socket.

Symbols

British Standards Kitemark

Identifies pipe and fittings manufactured under the BSI Kitemark Certification Scheme.

British Board of Agrément

BBA logo identifies non-Kitemarked fittings covered by a British Board of Agrément Certificate.

WRAS Water Regulations Advisory Scheme

Identifies pipe and fittings that are WRAS approved.

WIS Water Industry Specification

WIS identifies products that conform to Water Industry Specifications.

CE Marking

CE identifies product manufactured in accordance with a harmonised European Norm (hEN) accompanied with a declaration of performance (DoP).

Important notes:

OsmaDrain fittings must be ordered in their pack multiples as illustrated in price list.

Product photos are for example only and not representative of every fitting size.

Free delivery is subject to minimum order values as stated in your Wavin agreement.

Email: info@osma.co.uk Web: www.wavin.co.uk  @WavinUK

Acceptance

a) British Standards Institution

♥ Osma/Wavin below ground drainage systems comply where applicable with the requirements of the following British Standards:

BS EN 124:1994 Gully tops and manhole tops for vehicular and pedestrian areas.

BS EN 1401-1:2009 Plastics piping systems for non-pressure underground drainage and sewerage.

BS EN 1433:2002 Drainage channels for vehicular and pedestrian areas – Classification, design and testing requirements, marking and evaluation of conformity.

BS EN 13476 – 2 Plastics piping systems for non-pressure underground drainage and sewerage – PVC-U.

BS EN 13598 – Parts 1&2 Plastics piping systems for non-pressure underground drainage and sewerage.

BS 4660:1989/2000 Unplasticized polyvinyl chloride (PVC-U) pipes and plastics fittings of nominal size 110mm and 160mm for below ground gravity drainage and sewerage.

BS 7158:2001 Plastics inspection chambers for drains and sewers – Specification.

BS 4962:1989 Plastic pipes for use as light duty sub-soil drains.

♥ WavinCoil pipe complies with BS4962 requirements and carries the BSI Kitemark.

♥ UltraRib pipes and fittings (where applicable) comply with the requirements of the following:

BS EN 13476 – 3 Plastics piping systems for non-pressure underground drainage and sewerage.

Water Industry Specifications (WIS): WIS 4-35-01 July 2000: Issue 1.

Specification for Thermoplastics Structured Wall Pipes, Joints and Couplers with a smooth bore for gravity sewers for the size range 150-900 inclusive.

Medium Density Polyethylene pipes up to nominal size 63mm. Kitemarked to BS EN 12201-2:2003 (KM 80817).

The Trigon pipe is Kitemarked to WIS 4-32-19 (KM 533039).

The Trigon pipe is approved under Regulation 31 (England and Wales).

Regulation 27 (Scotland) and Regulation 30 (Northern Ireland) N.B. Formally Regulation 25.

Trigon fittings are WRc, DVGW and KIWA approved.

♣ WRAS Trigon has full system approval under WRAS Certificate No. 0409106.

b) British Board of Agrément

▲ Agrément Certificates have been awarded to the following systems:

87/1835 OsmaDrain Underground Drainage System.

10/H151 UltraRib HAPAS Roads and Bridges Highway Drainage System – 150mm, 225mm and 300mm.

98/3472 UltraRib Gravity Sewerage System – 150mm, 225mm and 300mm.

14/H214 UltraRib and TwinWall Road Gullies.

02/3940 TwinWall Drainage System.

03/4018 AquaCell Stormwater Management System.

02/H070 HAPAS Wavin TwinWall Highway Drainage.

Building drainage system 110-160mm

Description		Nom dia mm	Cat no	Pack qty	Price £ per piece
	Anti-Flood Valves For surface and foul water applications				
	S/S Anti-Flood Valve	110	4D921	1	280.13
	– single valve	160	6D921	1	337.90
	Sealed Inspection Pipe S/S Inspection Pipe				
	– with removable rectangular cover and airtight sealing ring, for use within traditional manholes or suspended drainage installations ♥	110	4D420	1	181.62
	Sealed Inspection Junction – 45° S/S Equal Double Inspection Junction				
	– with removable rectangular cover and airtight sealing ring, for use within traditional manholes or suspended drainage installations ♥	110	4D492	1	236.89
	Sealed Rodding Eyes P/E Rodding Eye				
	– square, sealed access cover, suitable for use in situations requiring a loading up to 15kN (1.5 tonnes), where the frame of the cover is supported by a concrete plinth	110	4D360	5	114.19
	Use in conjunction with D/S Bend	160	6D360	1	155.93
	S/S Square Top Rodding Point – sealed, c/w coupling	110	4D361	1	170.06
	Screwed Access Fittings P/E Screwed Access Cover				
	– allows full bore access to the drainage system for cleaning, fits into a standard OsmaDrain ring seal socket ♥	110	4D292	5	34.69
		160	6D292	1	79.34
	S/S Screwed Access Cover				
	– allows full bore access to the drainage system for cleaning, fits over a standard OsmaDrain spigot ♥	110	4D290	5	59.02
		160	6D290	1	103.72
	S/S Short Radius Access Bend – 87.5°				
	– allows access via screwed access cover to the drainage system for cleaning ♥	110	4D169	5	136.33

	Description	Nom dia mm	Cat no	Pack qty	Price £ per piece
	S/S Access Pipe – allows access via screwed access cover to the drainage system for cleaning ♥	110	4D274	5	98.83
	♥	160	6D274	1	212.94
	D/S Short Radius Access Bend – 87.5° – allows access via screwed access cover to the drainage system for cleaning ♥	110	4D569	5	148.55
	D/S Equal Access Junction – 87.5° – allows access via screwed access cover to the drainage system for cleaning ♥	110	4D593	5	172.35
Socket Plugs					
	Socket Plug – internal blanking plug, fits into standard OsmaDrain spigot	110	4D291	10	16.23
	P/E Socket (Closed) Plug – incorporates one closed boss socket position, will form either a 32mm, 40mm or 50mm waste pipe connection when fitted with the appropriate boss socket adaptor ♥	110	4D296	5	24.47
	P/E Socket Plug – allows full bore access to the drainage system for cleaning, fits into a standard OsmaDrain ring seal socket ♥	160	6D296	1	52.47
	P/E Socket (Open) Plug – incorporates one open boss socket position, will form either a 32mm, 40mm or 50mm waste pipe connection when fitted with the appropriate boss socket adaptor ♥	110	4D297	10	37.35
Universal Gully Fittings					
	S/S Universal Gully Trap – to obtain 'P', 'Q' or 'S' trap add appropriate 45° or 87.5° OsmaDrain bend ▲	110	4D500	5	47.38
	P/E Plain Hopper – with 150mm long spigot ▲	110	4D507	2	52.06
	P/E Vertical Inlet Hopper – with 150mm long spigot ▲	110	4D508	1	63.68

OsmaDrain

Building drainage system 110-160mm

Description		Nom dia mm	Cat no	Pack qty	Price £ per piece
	P/E Sealed Access Hopper – with 150mm long spigot 	110	4D527	5	149.71
	SW/S Plain Hopper – with solvent socket 	110	4D503	5	35.55
	SW/S Vertical Inlet Hopper – with solvent socket 	110	4D504	1	61.09
	S/S Bossed Pipe – with four boss sockets 	110	4D589	5	35.68
	Sealed Access Cover – for Universal Plain Hoppers complete with sealing ring and screws 	–	4D526	1	76.25
Bottle Gullies					
	P/E Access Gully – square with rotating top and grid	110	4D850	1	85.40
	S/S Paved Area Gully – polypropylene	110	4D860	1	127.32
	Sealed Cover Plate – for use with 4D860 Paved Area Gully only	–	4D862	1	70.75
	Metal Grid Gully Cover – for use with 4D860 Paved Area Gully only	–	4D863	1	83.76
	S/S Bottle Gully – 87.5° – provides access to the drainage system for cleaning, supplied with all bosses closed	110	4D900	1	99.84
	S/SW Bottle Gully – 87.5° – provides access to the drainage system for cleaning, supplied with side bosses closed but with 110mm back boss open	110	4D901	1	126.40
	Sealed Access Cover – for 4D900/901 Bottle Gully – complete with sealing ring and screws	–	4D915	1	98.25

Introduction to

Wavin Stormwater Management systems

Wavin's specialist approach to responsible management of stormwater, including its efficient capture, transportation, cleansing, infiltration and attenuation and re-use. We're ready to contribute at any stage in a project, with one central goal: to help achieve the optimum project outcome. Our in-depth expertise, design insight and proven system technology is applied wherever required to ensure each installed scheme achieves maximum efficiency of cost and integrated function, and full compliance to the latest regulatory criteria.

Key to abbreviations

Symbols

 British Standards Kitemark

Identifies pipe and fittings manufactured under the B.S.I. Certification Scheme.

 British Board of Agrément

BBA Logo Identifies non-Kitemarked fittings covered by a British Board of Agrément Certificate.

Acceptance

a) British Board of Agrément

 AquaCell Eco, Prime, Core and Plus have been awarded British Board of Agrément approval under BBA Agrément Certificate No.03/4018.

Wavin AquaGrid

Plastic Pervious Paving system

Description		Nom dia mm	Cat no	Pack qty	Price £ per piece

Osma Geotextile

Geotextile products

	Description	Tensile strength	Roll size	Cat no	Pack qty	Price £ per piece
	Standard Product Range					
	Nonwoven 4.5m Roll	6x6 kN/m	4.5x100	KNW6/6	1	367.37
	Nonwoven 4.5m Roll	8.3x8.3 kN/m	4.5x100	KNW8	1	448.45
	Woven 4.5m Roll	18x14 kN/m	4.5x100	KSG18/9	1	407.91
	Woven Handy Pack	17x10 kN/m	50m ²	KSG18/9HP	1	84.92

- Nonwoven – Filtration**

When used as a filtration layer, it will hold back soil particles from entering underground structures, such as AquaCell soakaways, and allow the free flow of water from them.
- Woven – Separation**

When used as a separation layer it prevents the intermixing of particles from two sub-surface layers with different properties, such as sub-soil and hardcore in driveways and roads.

Notes

Notes

Important notes

All purchases are subject to our standard terms and conditions of sale, available at **wavin.co.uk** or call for a copy.

Prices are subject to VAT at the current rate.

Wavin operates a programme of continuous product development, and therefore reserves the right to modify or amend the specification of their products without notice. All information in this publication is given in good faith, and believed to be correct at the time of going to press. However, no responsibility can be accepted for any errors, omissions or incorrect assumptions. Users should satisfy themselves that products are suitable for the purpose and application intended.

Quality assurance

Wavin manufacturing sites operate Environmental Management Systems which comply with the requirements of and are certified to EN ISO 14001:2015, Certificate No. 42231.

All Wavin products are manufactured under a quality management system which is approved to BS EN ISO 9001:2015.

Orders and enquiries

Tel: 0844 856 5152

For further information on our product ranges, see the following:

Wavin website

wavin.co.uk is the place to find overview of our ranges, individual item information (such as photo, dimensions, etc), literature via our download centre, news and events, blogs, online calculation tools, links to 'How to Videos' and more.

Download centre on wavin.co.uk

Visit our website download centre for electronic copies of:

- ③ Product, Design and Installation Guides
- ③ Price list
- ③ Safety sheets
- ③ Quality certificates
- ③ CAD files, etc.

'How to' Videos

To support the Osma and Wavin brands, there are a series of 'How to' videos to show how you can make light work of installation problems. They can be viewed at **youtube.com/WavinUK**

Wavin Knowledge Centre

Keep ahead of breaking news with a fresh and insightful look into the construction industry. Our aim is to keep you informed and up to date with the latest how-to guides, regulations, innovation and more. Visit **blog.wavin.co.uk**

Technical Tools

Register on **myportal.wavin.co.uk** for access to great tools to help you get the job done faster and with assured accuracy. Includes AquaCell Configurator, a Pipe Deformation tool and Inspection Chamber Selector.
